## Standard English Program

**1**

### **Our expert teachers are all native speakers of English.**

Each member of our faculty is a highly-trained professional ESL instructor. Each is a native speaker of English and is certified by the New York State Education Department. The faculty have decades of combined ESL teaching experience in New York City and around the world. In addition, many of our faculty have specialized TEFL certificates as well as advanced degrees. Our innovative and dedicated faculty meet each week to discuss and evaluate our courses, assuring that each student receives the highest level of ESL instruction.

**2**

### **There are no more than 12 students in each class.**

**3**

### **Our meticulously designed curriculum is approved by the NYS Education Department and by the Accrediting Council for Continuing Education and Training (ACCET).**

#### ●Writing

Writing is a high priority for NYEA. Each week, students are given a writing assignment to be completed.

Our instructors take the time to carefully check and grade each student's assignment offering feedback and tips to help them improve their writing skills.

#### ●Speaking

What could be more important when navigating a new, native-English-speaking environment than having the ability to speak clearly and confidently? Extensive conversation and discussion are essential components of each class. Students at NYEA get lots and lots of speaking practice -- both formal and informal. Students will have the chance to practice speaking in class and more informal group discussions. Students receive a weekly speaking assessment, scored by the instructor.

#### ●Listening

The curriculum at NYEA includes lots of listening exercises where students will increase their ability to understand spoken English. By means of CDs, videos, and song lyrics as well as lively classroom discussions, students at NYEA can expect to improve their listening skills very quickly!

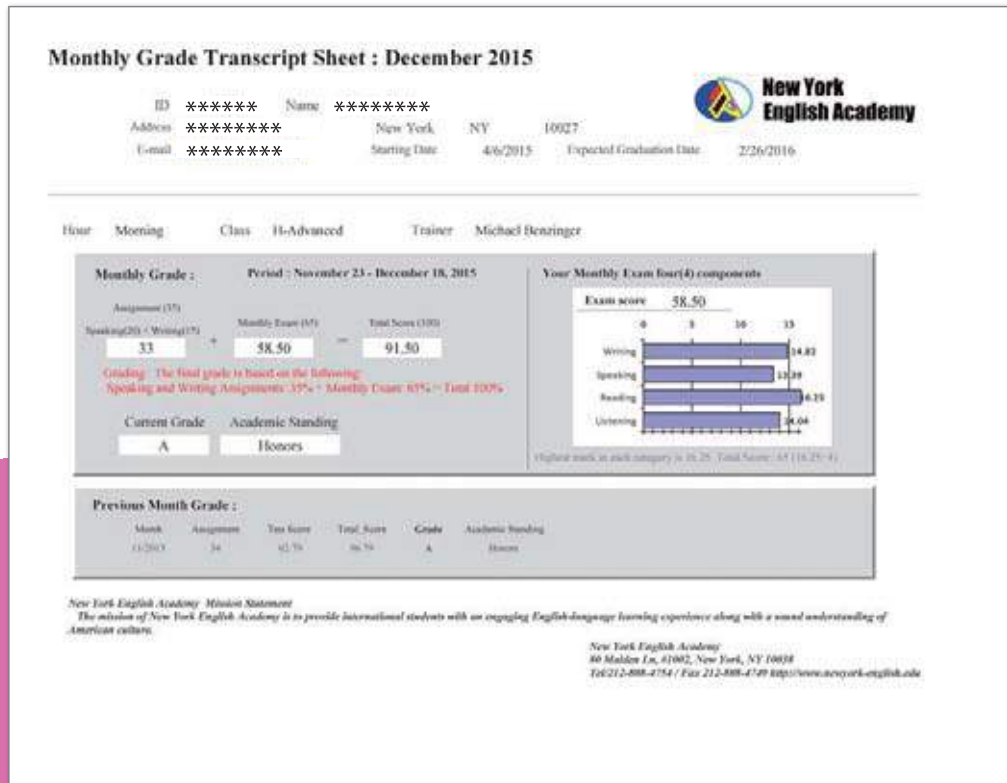

#### ●Reading

Reading in English is one of the best, but often overlooked, methods of improving your English vocabulary and grammar skills quickly. At NYEA students will read a variety of short articles about interesting and contemporary topics. These readings will provide new vocabulary and ways to spark conversation.

## 4 Exams and academic progress.

Students at NYEA are given an exam every third Wednesday of the month. Each student then receives a transcript the following week, indicating each score in the exam's four testing areas (writing, reading, listening, and speaking), as well as the current month's score on the weekly writing and speaking assignments. The composite provides a total score and letter grade for the month. This means you will be able to track your progress as you learn more and more English!

## 5 Field trips and activities!

NYEA has Events Coordinator whose job it is to find enjoyable and educational activities all around New York City. Each Friday the entire student body goes on a trip together to an interesting event or location, often places that are rarely visited by tourists. This is your chance to put your new English skills to use in the real world and mingle with staff and students from every level. Past trips have included festivals, sporting events, and art exhibitions.

# ELECTIVE PROGRAMS

## What are NYEA Elective Programs?

These new courses will give students a chance to focus on developing their skills in specific areas of English. We have spent more than a year testing, researching and building these courses to perfectly fit the needs of our students. Students in our Standard English Program can add these courses in order to get extra practice in a particular area of English. Or a student who wants a more casual, less demanding schedule might choose to take just an elective or two alone. Either way, we are excited to expand our offering with these fantastic new courses.

### Conversation & Pronunciation

One of the most popular requests from ESL students is to have more practice with speaking and pronunciation. This brand new course is designed to give English learners an extra boost in their speaking abilities. Sign up to spend two afternoons a week focusing on mastering your speaking skills!

- Learn to speak English!
- Smoother, more natural pronunciation!
- Be understood!
- Meet people in English! Make friends!

This course will help students navigate the sometimes confusing, secret language of native speakers.

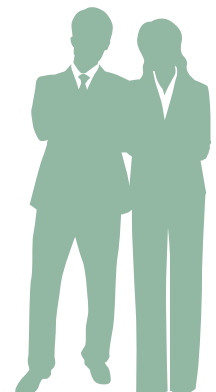

- Learn the secret language of the locals!
